PMI POSITRAN
MANUFACTURING, INC.

Positran Manufacturing, Inc. is a full service contract manufacturer that provides you with multiple degrees of manufacturing assistance from design support through assembled PCB, to the finished end product. We supply solutions to your manufacturing needs at an affordable price. If your company is growing rapidly, downsizing, or just looking for ways to reduce your costs and improve your quality, Positran Manufacturing, Inc. is your solution. PMI will improve your current production and increase your manufacturing capabilities, while reducing direct and indirect costs, resulting in improved efficiency and increased profit margins.

Superior quality, on-time delivery, and cost effectiveness is the hallmark of a partnership with Positran Manufacturing, Inc. A program manager will be assigned to track all facets of the production of your products including purchasing of material, receiving and inspection of material, inventory control, the assembly process, and final inspection. Our experienced managers will keep you informed of the status of your product from start to finish and function as your own company manager. Positran Manufacturing, Inc. is confident that no other contract manufacturer will offer you the superior service, responsiveness and the peace of mind that you expect & deserve.
